

Dr. Brian Hall

June 1, 1956 - June 14, 2020

Brian K. Hall, M.D., 64, of Tulsa, was born June 1, 1956 in Oklahoma City, OK to Dr. William E. Hall, M.D. and Patricia (Weintz) Hall.

Brian was a National Merit Scholar and graduated in 1974 from Tulsa Memorial High School. He went on to complete his higher education at the University of Oklahoma where he earned his Bachelor's Degree in 1977 and his Medical Doctorate in 1981. While at OU, Brian earned a full-ride scholarship, enjoyed fencing, and lettered on the varsity swim team. It was during this time that he met his lifelong closest friends.

He worked as an obstetrician and gynecologist through Saint Francis Health system, and with his father, Dr. William (Bill) Hall, ran the Eastern Oklahoma Center for Women until their joint retirement in 2007. From 1979 to this day, he would frequently play Dungeons and Dragons with the same group from OU, as well as their children and his daughter and son-in-law. He was an avid reader, loved music, and had recently taken up the hobby of making jewelry.

Dr. Hall was preceded in death by his parents, Bill & Patti Hall. He will be dearly missed by his loving family: aunt Carolyn Daley of Hattiesburg, MS and her daughter Kathryn Daley of Chicago; sister Janice Lewis and her son William Lewis of Tulsa; brother Bruce Hall and his wife Lori Hall of Tulsa; and his two daughters: Valerie Hall Stinnett and husband Jake Stinnett of Tulsa and Whitney Hall of Enid.

“ Dr. Hall was the most caring and sweet Dr.that I have ever had. He always had a smile on his face and made you feel so welcomed. He was a very patient man and never rushed you out of the examining room because you had more questions for him. What I heard from his Dad was he learned from his Mom how to treat all women with his kindness. Now what man would share that with his patients-a kind and considerate man. I met him a number years ago in Walmart and made him roll his eyes at me. I said very loudly (I don't think that I was that loud) "I guess that I look different to you with all my clothes on". His face got a little red and then he said to me that was a good one and gave a hearty laugh. Rest in peace Dr. Brian it was great knowing you!

“ Dr. Hall was my doc during my divorce. He stayed and took pics with the family . Everyone asks if he is my husband when they look at them. He was selfless, comforting, and brilliant. He always made me laugh. I was blessed to have been under his care. Prayers for a peace that surpasses all understanding for his beautiful family. Thanks, Doc🦋

“ My heart is broken to hear of Dr Hall's passing. He was my first OB/GYN ever. I went through infertility and 2 miscarriages and Dr Hall was there. When I finally had my son on Christmas Eve, it was Dr Bill who was there!!! So blessed to have known and loved both of them! Dr. Hall will be greatly missed.

“ Dr. Hall was my doctor for many years. He was a wonderful man and I can say with all my being that he saved my life. He was my physician during a very difficult time in my life and went above and beyond to take care of me. He will be greatly missed!

“ Dr Hall walked onto the Memorial HS pool deck the year Will entered his Freshman year. Brian donated 7 years as the Assistant Coach and poured so much into the boys and girls teams as well as he taught me so much about the sport he lived and loved. He was my friend, my support and my mentor, but most of all, he was my friend.

“ We are so saddened to hear of Brian's passing. It's hard to believe this kind, intelligent man won't be playing D&D with the guys anymore. I know the guys will remember him each time they gather (even virtually). It meant so much that he, Valerie and Jake shared our wedding day with us. We will remember him with each anniversary. We shall miss him terribly. Our hearts go out to Valerie, Jake and Whitney, as well as all who loved him.

“ Where to start... I knew him best as Bruce and Janice’s big brother. He was always so nice and friendly. Easy to talk to and I loved that dry humor. Years went by and i found him again when I needed a new “lady Dr”. It was great to reconnect albeit an odd place. Again Dr Brian was the same as I remembered. Kind, caring, and understanding ...and that humor. Lol. I actually cried when he told me he was retiring. We stayed in touch after his retirement for a while but then life got in the way and we lost touch. I used to see him every now and then at the grocery store or around town and we would spend time getting caught up. I am sad that he is gone and I didn’t track him down to catch up. My favorite memory of Dr Brian isn’t really a memory but something he used to always say when he came into the room before exam time. I’d say hi how are you doing and he would always say better than you because I have all my clothes on. Lol. I always laughed. Good memories. Oh and the hat! Lol. RIP Brian. You are missed.

“ I'm so going to miss him flying into my hospital room and i was all drugged up, all i could think of of was Dr. Jones!! lol That hat just completed his look. He was such a generous man and took care of me even after i didn't work for him. I hate that i'm going to miss tomorrow.

Thank you for being you!!!!!!!!!!

“ This is a picture of my dad holding my son Anthony Brian, named after Dr. Brian Hall. I went into labor at just 25 weeks and was in and out of the hospital. Because of both Doctors Brian and William, my son was born full term and is 17 years old now.

“ Dr. Brian Hall was the most wonderful, caring doctor. He loved his daughters so very much. I always enjoyed looking at their pictures when I had a doctor's appointment. Dr. Hall was kind, patient, always willing to explain conditions to you, and always encouraged me.

I shall always be grateful and thankful to him for being my doctor. He had just begun his practice when I first went to him. The world's loss is Heaven's gain.

“ There's so much I could say. He was an amazing doctor and all around wonderful human being. He saved the lives of two of my children. He was kind, compassionate and empathetic to me and my family. After I suffered the devastating loss of my infant daughter (due to a genetic illness), he would call and check on me often (or if he was busy, he had one of his angelic office ladies check on me). His heart and his dedication to his patients, their families, and his staff were unmatched. This is a tremendous loss for all who knew and loved him. To his daughters, other family members, and his former staff and colleagues: Please know that my prayers and sympathies are with all of you during this hard time. He was so loved and appreciated. He wasn't just my doctor, he was a valued friend and hero to me. He will be missed.
