Comments

“ Mr. Rorschach worked for a small company that did environmental remediation back in the early 1970's and I was hired as the general "office girl". I was right out of college and was so green and unsure of myself that I had a difficult time getting settled. He calmed me down and supported my efforts and helped me to gain some confidence which I sorely needed. I have never forgotten his kindness. Peggy

“ Mr Rorschach was a very kind, smart &&' funny man. He was always learning new things because he was always reading something books, magazines, newspapers, ect., the latest book he was reading was on Astrophysics.
Mr Rorschach &&' I were really close I always looked forward to seeing him and he always looked happy to see me it just made my day knowing that when I got there his face would light up and his beautiful smile would just pop up.
I remember we would take strolls around the pond, he really liked seeing the Ducks so we would stop in a certain spot where they were and I would feed the Koi Fish inside the pond on a few occasions we even saw a Heron and a bunny.
I have so many good memories with him but I am just so thankful for being able to enjoy the time that we were able to spend together. Mr Rorschach will always have a special place in my heart that nobody can replace because he was the grandfather that I never had. -Dee
